OMAHA EXPOSITION COMMISSIONERS.

Complete Proceedings of the Recent Meeting of New Mexico Transmississippi Commissioners in Santa Fe.

The NEW MEXICAN, on Saturday evening, announced that the New Mexico board of Omaha Transmississippi commissioners had been in session in Santa Fe during the day, with President Prince in the chair, and Commissioners Llewellyn, Hopewell, McLaughlin, Morrow, Day and Secretary Curran present. The proceedings of the forenoon session, including the action taken extending the time for the voting contest until March 15, at noon, and the exclusive authorization of Treasurer S. H. Day hereafter to receive votes, were also printed.

At the afternoon meeting the following members were added to the several county committees: Sierra county, Thomas Seales, John Kane and Geo. Banca; Santa Fe county, R. M. Carley and Richard Mathews; Mora county, H. D. Reinken; Taos county, Alex. Guldorf; Guadalupe county, Max B. Guldorf; Grant county, John W. Pflieger; Colfax county, E. T. Warren and J. W. Dwyer; Dona Ana county, John Bonning, F. C. Barker, Agapito Torres, Pablo Melendres, Geo. W. Maxwell, E. M. Sutherland, J. W. Mossman and Wm. Desauer; Bernalillo county, Chester Greenwood, Frank M. Wynkoop and Thomas H. Lowthian.

The secretary was instructed to write to the chairman of the several county committees, notifying them that they were authorized to increase the membership of their respective committees when in their judgment it was expedient to do so, with a request that they promptly advise the secretary of their action in the premises.

A letter was read from Prof. J. C. Carrera, of Las Cruces, tendering his beautiful and valuable collection of minerals to the commissioners for exhibit at Omaha, provided proper arrangements were made for the care and safety thereof. The secretary was instructed to communicate with the professor on the subject.

Numerous other letters were read and ordered filed.

Charge of the proposed cangraria exhibit was transferred from Captain Day to Commissioner Llewellyn.

On motion of Commissioner Hopewell, the agricultural department was added to the department in charge of Commissioners Morrow and Curran.

The following resolution was unanimously adopted:

Resolved, That the commission respectfully invites the assistance and co-operation of the Woman's board of trade of Santa Fe, the Woman's Improvement association, of Las Cruces, and other institutions of like character in the territory, and that the secretary be instructed to send a copy of this resolution to all such bodies.

The offer of Mrs. J. G. Albright, of Albuquerque, to loan the commission a camera, was accepted, and she was unanimously chosen official photographer of the commission.

The following was also adopted:

Resolved, That this commission notes with pleasure the presence of Mr. Cliver, of the A. T. & S. F. railroad, at this meeting, and is gratified at the interest taken by the railroad people in the work of the commission.

The commissioners thereupon adjourned to meet in Santa Fe on March 15.

MINOR CITY TOPICS.

U. S. weather bureau forecast for New Mexico; generally fair tonight and Tuesday.

Regular monthly meeting of the W. C. T. U. on Tuesday afternoon, March 1, at 4 o'clock at the home of Mrs. Harvey.

The people of Santa Fe should not for an hour relax their efforts to secure daily mail and stage service between Santa Fe and Bland.

The city marshal has a force of men hard at work grading Manderfield street and the thoroughfare will be open to traffic tomorrow.

Sheriff Kinsell and J. W. Akers, of this city, have bonded the Live Oak mining claim in the south Santa Fe county, an extension of the Benton, to R. M. Force for \$20,000.

Mr. Flavio Silva began a private school in the first ward, with an attendance of 25 boys. Mr. Purdy, Miss Himes and Miss Schenck also opened schools in different parts of the city.

On Saturday noon, at Tres Piedras, Ed Hartman, a brakeman on the D. & R. G. road, while coupling cars got his right hand between the drawheads, and had the first and third fingers taken off. He is at his home in this city resting up while the wounds are healing.

The wagon road between Santa Fe and Bland is reported to be in excellent condition, with the exception of Cienega hill, and that is being rapidly repaired under the direction of the merchants of Santa Fe. Goodwin and Bennett are doing the work.

John Nagel, son of Mr. M. J. Nagel, of this city, is now engaged in freighting between Santa Fe and Bland with an excellent outfit and reports that he has all he can do. He left for the Cochiti metropolis this morning with 3,000 pounds of potatoes, one-half being loaded at Cartwright's and the other half at Best's.

The Santa Fe Electric Telephone company has just completed the work of transplanting its poles from the middle of the newly opened Manderfield street on the north side of the capitol grounds. While this work was in progress the system on the south side was necessarily somewhat damaged, but it is now working as smoothly as ever.

Mr. G. M. Hill, road master of the Santa Fe, and Mr. F. V. Fox, a conductor, were over from Las Vegas yesterday to visit the ancient, and stopped at the Palace hotel.

Mr. Cole Lydon, of Alamogosa, division superintendent of the D. & R. G., spent Sunday in Santa Fe, going north this morning in his private car. He registered at the Palace hotel.

Dr. D. C. Kelly, formerly engaged in the practice of medicine at Cerrillos and Bland, writes from Florence, Colo., that he is "positively not dead." He ought to be good authority on the subject.

Messrs. J. O. Smith, Dallas, Tex.; Joe Triest, San Francisco; James Younger, New York; H. B. O'Dell, St. Louis; J. M. Hale, St. Joseph, and W. H. Wahl, traveling salesmen, registered at the Palace hotel Saturday and Sunday nights.

Mr. C. F. McKay, the efficient associate editor of the bright Bland Herald, is in the city on a business errand. He reports several notable new strikes in the Golden Cochiti and that the entire district is in a most flourishing condition. He estimates the number of miners and mechanics now actually at work in the camp at fully 400 and the number is daily increasing.

TERRITORIAL CATTLE INTERESTS.

President Jack, of the Territorial Cattle Sanitary Board, Pleasantly Talks with a New Mexican Scribe.

Mr. W. H. Jack, of Silver City, president of the territorial cattle sanitary board, came in from Raton last night on an official mission and of course soon encountered one of the NEW MEXICAN's animated interrogation points.

The gentleman confided to the guileless scribe that the cattle sanitary board was duly scheduled to meet at Las Vegas on Monday, March 14, and that he anticipated the meeting would prove of more than ordinary interest and importance, as the subject of cattle rustling in the counties of San Juan, Colfax, Socorro and Grant will be taken up and serious measures taken to correct the growing evil.

Mr. Jack says that it is believed that there are 300 stolen cattle in San Juan county, and that New Mexico and part from Arizona, and some of the persons holding these cattle have been notified to appear before the board and show the written authority whereby they possess and claim ownership of the rustled stolen cattle. In Colfax county three persons are now under arrest charged with cattle stealing and in Socorro and Grant counties it is complained that the stock men have recently suffered serious losses from the operations of rustlers. These matters will no doubt be the subject of attention at the coming meeting of the board.

"Generally speaking," said Mr. Jack, "the cattle industry of the territory is in a most flourishing and satisfactory condition, probably never better. Stock has wintered better than usual, the ranges are good considering the season and prices continue almost too high," concluded the gentleman.

He reports several notable new strikes in the Golden Cochiti and that the entire district is in a most flourishing condition. He estimates the number of miners and mechanics now actually at work in the camp at fully 400 and the number is daily increasing.

CHAMA RIVER PLACER DEAL.

Cashier Sweet, of American National Bank, of Kansas City, in Santa Fe for the Purpose of Closing the Deal.

Mr. A. C. Sweet, assistant cashier of the American National bank of Kansas City, came in from the east last night and placed his autograph on the Exchange register. Mr. Sweet's errand in the city is one of more than ordinary moment. He comes prepared finally to close the deal for the 900 acres of placer ground on the Chama river above Abiquiu, sometime ago sold to the Rio Arriba Placer company, of St. Louis and Kansas City, through the agency of Hon. F. A. Reynolds, of this city. The deeds for the valuable lands in question are in escrow in the First National bank, of Santa Fe, and Mr. Sweet brought with him the necessary money to take them up and has doubtless done so before this time.

As previously fully disclosed in these columns, the lands involved in the deal are situated about six miles above Abiquiu and embrace the Chama river bed and a strip of land on both sides thereof for a distance of one mile and a half above the point indicated. The purchasing company, whose financial strength is unquestioned, will immediately begin the construction of the proposed \$10,000 hydraulic plant on the property. This includes the building of a ditch six and a half miles long, besides the powerful steam dredges and other appliances needed for handling the auriferous gravel beds secured. The local directors of the company are Messrs. F. A. Reynolds, Charles F. Easley, John T. Forsha and Edwin Walters, the latter being engineer in charge of the contemplated work.

Mr. Sweet visited Santa Fe and traveled somewhat extensively through New Mexico 17 years ago, coming here at the time in connection with mining investments of J. Sterling Morton and other prominent people in the Black Range of Sierra county, and he seems much impressed with the many changes and improvements he notes on every hand. He repeats that the interests of both Kansas City and St. Louis are manifesting more interest in the mines of New Mexico than for many years and is persuaded that this government as any soldiers of the territory never before was so bright as at present. He says that people here have every reason to be hopeful.

New Regent of the Normal School at Silver City.
Governor Otero this forenoon appointed Mr. Jo E. Sheridan a member of the board of regents of the Normal school at Silver City, vice Shoemaker, whose term has expired. The appointment is one of the best that Governor Otero has made during his term of office and a better qualified man could not have been selected for the position. Mr. Sheridan is a native of Pennsylvania and came west to seek his own fortune at the age of 15 years; first to Colorado. He worked himself up from the place of a miner to that of manager and superintendent of several mining companies, and then to Grant county, where he engaged successfully in mining business. This was about 12 years ago. About eight years ago he purchased an interest in the Silver City Enterprise, becoming its sole owner five years ago. The paper is one of the brightest and best in the southwest and is especially strong in mining matters. In politics Mr. Sheridan is a strong Republican and of course conducts the Enterprise on Republican principles. Governor Otero certainly, from every standpoint, did well in the selection of Mr. Sheridan for the position named.

Irrigating Company Organized.
Carrie A. Erwin, Ulysses G. Osborn, James Holmes, Scott N. Morris, and Edwin G. Erwin have organized the Animas River Land & Irrigation company, and filed articles of incorporation in Secretary Wallace's office. The objects of incorporation are the constructing, owning, operating and maintaining canals for irrigating, manufacturing and domestic purposes in the county of San Juan; to purchase town sites and deal in real estate of all description. The capital stock is \$250,000; principal place of business, Aztec, San Juan county, N. M.

Another Fire Insurance Deposit Made.
The Hartford Fire Insurance company, of Hartford, Conn., this morning qualified itself to continue writing risks in New Mexico by depositing with the territorial treasurer \$10,000 in approved mortgages on real estate in Albuquerque and East Las Vegas, the treasurer expressly reserving the right, upon 60 days' notice to the company, to cancel the permit should he at any time deem the security insufficient to cover the amount of \$10,000.

Back From the Organ Mountains.
Dr. D. W. Manley and Sheriff Kinsell have returned home from a trip to the Organ mountains in Dona Ana county. While away Dr. Manley made a satisfactory deal for the Mole group of mines in the Organ mountains for the Mary Mining & Smelting company of which he is secretary. It is understood that this arrangement will supply the Cerrillos smelter with all the lead ore needed for fluxing purposes. The NEW MEXICAN will give additional facts on this important subject in a few days.

GOVERNOR OTERO ON CUBAN SITUATION

In Reply to a Newspaper Query, the Governor Expresses Implicit Confidence in President McKinley.

On Saturday afternoon Governor Otero received the following dispatch: Governor Miguel A. Otero, Santa Fe, N. M., New York, Feb. 25, 1898.—What in your view would be the duty of the president should court an inquiry into the destruction of Maine due to Spanish treachery? Should we not exact freedom for Cuba, rather than money indemnity? How many men could your territory furnish, 30 days, upon call of president? Kindly telegraph answer New York World at our expense.

THE WORLD.

To which the following answer was sent: World, New York City.

Santa Fe, Feb. 26, 1898.—As I believe most thoroughly in the patriotism, prudence and caution of President McKinley, I would not venture to offer any suggestions as to what ought to be done. President McKinley knows better than anyone what his duty is, and will do it. If it shall be found that the destruction of the Maine was due to Spanish treachery, the transfer of all Spain's West India possessions direct to the United States would not be sufficient atonement for the outrage; and our government would be fully justified in deferring all negotiations concerning it until after merited chastisement is inflicted; but if Spanish authorities are blameless, and the destruction was not merely accidental, then this country could not in honor demand more than compensation for the lives of the gallant men so sacrificed and for the property destroyed.

While the people would like to see Cuba free, I do not see that the question of her independence is necessarily involved in the settlement of this difficulty.

In case of war, or any call of the president for troops, New Mexico will furnish, as she did during the war of the rebellion, more men in proportion to her population, than any state or territory in the Union; a large majority of her soldiers are Spanish speaking and as loyal to this country as any New England troops, they will rally round the stars and stripes, and fight as hard for this government as any soldiers of the United States, and may be counted and relied upon to make good the above prediction.

MIGUEL A. OTERO.
Governor of New Mexico.

DR. WURTH'S OPINION
OF THE NEW DISCOVERY IN MEDICINE.

A Remarkably Successful Remedy for Dyspepsia, Indigestion and Stomach Troubles.

Dr. Wurth, in commenting on recent discoveries in medicine, said: There is none which is certain to be so valuable and far-reaching in benefit as Stuart's Dyspepsia Tablets, the new stomach remedy. I say far-reaching, because people little realize how important a sound stomach and vigorous digestion is to every man, woman and child.

Indigestion is the starting point of consumption, heart disease, Bright's disease, diabetes, nervous prostration, liver troubles; why is this so? Simply because every nerve, muscle and tissue in our bodies is created and nourished from the food we eat. If that food is, by reason of a weak stomach, compelled to lie for hours, a sour, fermented mass of half digested food, it poisons the blood and nervous system, creates gas which distends the stomach and bowels, causing pressure on the heart, lungs and other organs and seriously impeding their action.

He says further, the point to direct attention is not the nerves, nor heart, nor lungs nor kidneys, but the stomach, the first cause of all the mischief.

The remedy to use for indigestion and weak stomachs is not some cathartic, but a remedy which will digest the food, increase the flow of gastric juice, absorb the gases, and Stuart's Dyspepsia Tablets will accomplish exactly this result.

Any case of stomach trouble, because these tablets are composed of the digestive acids, ascorbic pepsin, Golden Seal and Bismuth, pleasant to taste, and not being a patent medicine, can be used by anyone with perfect safety. I believe Stuart's Dyspepsia Tablets will cure any form of indigestion and stomach trouble except cancer of stomach.

Full size packages of Stuart's Dyspepsia Tablets are sold by druggists at 50 cents. A book on stomach diseases together with thousands of testimonials will be sent by addressing Stuart Co., Marshall, Mich.

ALBUQUERQUE NOTES.

Abel Garcia, the 10-year old son of Jose Garcia of this city, died at Needles, on Friday.

The report that Perfecto Armijo, an ex-sheriff of Bernalillo county, had died from pneumonia at his ranch above the city happily proves to have been untrue. Mr. Armijo, although still very sick, is reported better.

Yesterday, B. Ruppe, president of the New Mexico Pharmacy board, received a telegram from the secretary of the board, W. C. Porterfield, at Silver City, stating that the meeting of the board, called for March 7, had been postponed until March 21, as several members had announced that they could not attend on the 7th. The board will meet at Silver City.

A. A. Grant, of this city, president of the Albuquerque Land & Irrigation company yesterday drove over the proposed course of the low-line canal, as it is being laid out by the corps of surveyors. Mr. Grant expresses himself as pleased with the route chosen and also with the intelligence that he received, that the survey had been very nearly completed. The finishing touches will be added early next week, after which, when the necessary estimates have been made, maps constructed and other office work completed the work of actual construction will be commenced, says the Democrat.
